

## LEGAL NOTICE

### NOTICE TO WATER USERS

State Engineer's Office,  
Salt Lake City, Utah, Jan. 12, 1914.  
Notice is hereby given that Smithfield City, by its attorney Leon Fonesbeck, whose post office address is Smithfield, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by the Session Laws of Utah, 1909 and 1911, to appropriate twenty-one (21) cubic feet of water per second from Summit Creek, Cache County, Utah. Said water will be diverted at a point which lies 200 feet north and 600 feet east of the southeast corner of Section 8, Township 13 north, Range 2 east, Salt Lake base and meridian, from where it will be conveyed by means of a pipe line for a distance of 14,000 feet and there used from January 1 to December 31, inclusive, of each year, to develop power for the purpose of electric lighting and propelling machinery at Smithfield, Utah. After having been so diverted and used, the water will be returned to the natural channel of the stream, at a point which lies 495 feet north of the east quarter corner of Section 24, Township 13 north, Range 1 east, Salt Lake base and meridian. This application is designated in the State Engineer's Office as No. 5347.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate and filed in this office within thirty (30) days after the completion of the publication of this notice.  
W. D. BEERS,  
State Engineer.

Date of first publication January 21, 1914, date of completion of publication February 20, 1914.

### SUMMONS

In the District Court of the First Judicial District of the State of Utah in and for the county of Cache, J. Z. Stewart, Jr., plaintiff, versus James B. Kent, Anna M. Kent, Adam P. Kent, Ruby Kent, William C. Kent, Anna Kent, J. Osborne Kent, Mary Kent, Caroline Kent Raybould, Caroline Kent, Alice Albrand, Joseph H. Kent, Elizabeth W. Cranney, Frank P. Cranney, Eliza Cranney, Lorton Cranney, Elizabeth Cranney, Adelbert E. Cranney, Maria Cranney, Wilbur T. Cranney, Rose Cranney, Lorette Cranney Kingston, Wilford W. Cranney, Laura Cranney, Emeline Cranney, Lallathia, Kate Emma Cranney Barton, Ivy M. Cranney Lohman, Wilard D. Cranney, Stenssa J. Cranney, and Hazel Cranney, defendants, Summons—The State of Utah to the said defendants: You are hereby summoned to appear within twenty days after service of this summons upon you, if served within the county in which this action is brought; otherwise within thirty days after service and defend the above entitled action and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which has been filed with the clerk of said court. This action is brought to recover a judgment or decree establishing a lost deed and quieting plaintiff's title to the land described in said complaint.

J. Z. STEWART, JR.,  
Attorney for Plaintiff.  
Address: Logan, Utah.

### NOTICE TO WATER USERS

State Engineer's Office,  
Salt Lake City, Utah, Jan. 23, 1914.  
Notice is hereby given that Heber M. Wells, whose post office address is Salt Lake City, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by the Session Laws of Utah, 1909 and 1911, to appropriate forty (40) cubic feet of water per second from Bear River, Cache County, Utah. Said water will be diverted at a point which bears north 42 degrees 42 minutes east 2,222 feet distant of the northwest corner of Section 30, Township 13 north, Range 1 west, Salt Lake base and meridian, from where it will be conveyed by means of a canal and a pipe line for a distance of 64,000 feet and there used from April 1 to September 30, inclusive, of each year, to irrigate 3,125 acres of land embraced in Sections 24 and 25, Township 13 north, Range 2 west; Sections 19, 20 and 31, Township 13 north, Range 1 west; Sections 6, 7, 8, 17, 18, 20, 21, 28, 29, 32 and 33, Township 12 north, Range 1 west; Sections 4 and 5, Township 11 north, Range 1 west, Salt Lake base and meridian. As a secondary purpose as much of said water as may be necessary will be used during the

entire year for domestic purposes. This application is designated in the State Engineer's Office as No. 5241A. All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate and filed in this office within thirty (30) days after the completion of the publication of this notice.

W. D. BEERS,  
State Engineer.

Date of first publication February 4, 1914, date of completion of publication March 6, 1914.

### A WORD WITH WOMEN

Valuable Advice For Logan Readers

Many a woman endures with noble patience the daily misery of backache pains about the hips, blue, nervous spells, dizziness and urinary disorders, hopeless of relief because she does not know what is the matter.

It is not true that every pain in the back or hip is trouble peculiar to the sex. Often when the kidneys get congested and inflamed, such aches and pains follow.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment; the passages are too frequent or scanty. Then help the weakened kidneys. Do not expect them to get well alone.

Doan's Kidney Pills have won the praise of thousands of women. They are endorsed at home—Read this Logan woman's convincing statement:

Mrs. Albert Neilson, River Heights Logan, Utah, says: "I take Doan's Kidney Pills whenever my kidneys are weak and they always help me at once and tone up my system. I can not praise this remedy too highly. The statement I gave some years ago still holds good."

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. Advertisement.

### FUR TRIMMINGS

DYED TO MATCH  
THE COSTUME

For carriage wear or afternoon functions the draped velvet gown illustrated here is elegant and appropriate. The little vest of fine lace gives a touch of daintiness to the bodice, and the bands of fur on the tunic and sleeves are dyed to match the gown.

Doan's Regulate cure constipation without griping nausea, nor any weakening effect. Ask your druggist for them. 25 cents per box.—Advertisement.

## LOW CUT GOWNS MASKED WITH DIAPHANOUS AND STYLISH DRAPERIES.

A smart evening gown in brocade satin is illustrated here. The skirt is draped gracefully from the front, and over it falls a very full tunic of tulle bordered with fur. The very low cut corsage is of satin and with bretelles of the tulle.

### SUCCESSFUL EVERYWHERE

People everywhere are talking of the quick and fine results Foley Kidney Pills give in backache, rheumatism, kidney and bladder troubles. You can not take them into your system without good results. That is because Foley Kidney Pills give to the kidneys and bladder just what nature calls for to heal these weak and inactive organs. Co-op Drug Co.—Advertisement.

## Taffeta Will Be Leader

Among the new notes recently received from fashion's center is the fact that taffeta will be the modish material for spring wear. It will be equally popular for street or house gowns, and already the new models are being displayed by the leading couturiers.

The new taffetas are of the chiffon variety, and are unusually supple in quality. This makes them especially adaptable to the bustle fashions, which promise to lead the spring models.

The street costumes of taffeta have short, oddly shaped bolero jackets, elaborately trimmed with narrow gathered frills, bands of shirring, silk fringe or braiding.

The skirts are two, three or four tiered, each section cut circular to produce the rippling fullness at the lower edges so desirable at present; or they are draped toward the back to produce the bustle effect.

The use of taffeta will not be confined to gowns alone, for the latest millinery is developed from this effective silk. Draped turbans of small proportions as well as hats of medium size are made of taffeta.

The material is shirred or fitted smoothly over the foundations, and the trimmings consists of taffeta or ribbon bows, flowers, velvet or plume fantasies.

Fascinating little bonnets for the children are shown which are made entirely of taffeta. Even the flowers are wrapped folds of the silk, with centers of contrasting color.

A heavy cold in the lungs that was expected to cure itself has been the starting point in many cases of disease that ended fatally. The sensible course is to take frequent doses of BALLARD'S HOREHOUND SYRUP. It checks the progress of the disorder and assists nature to restore normal conditions. Price 25c, 50c and \$1.00 per bottle. Sold by Ritter Bros Drug Co.—Advertisement.

### QUALITY OF DAIRY PRODUCTS

Sanitary Barns, Clean Cows, Milkmen and Utensils Are Among Some of Most Important Essentials.

(By L. M. DAVIS.)  
Quality is the keynote of a permanent success. Though the individual dairyman may doubt this, its truth is established when the dairy business, present and future, is considered. Failure to realize what constitutes success, refusal to meet the obligation which every dairyman owes to the dairy industry, and competition are at least three conditions which have brought upon dairymen the great problem of how quality can be raised, for the place has been reached where improved conditions must prevail.

Every person who handles milk or cream knows that they are perishable products, which require special care. Failure to observe the necessary precautions in handling these products must therefore be considered as a disregard of the principles underlying quality. Were dairymen to apply

Modified Ley Fall.

themselves closely in two particulars, over ninety per cent. of the quality troubles would disappear, and this raised standard would be accompanied by a corresponding gain in net profits. Cleanliness and low temperatures are two features the abuse of which leads to low grade dairy products. A large percentage of the bad flavors in milk, cream and butter are the result of dirt, manure, hair and flies getting into milk during the milking process, and this becomes the more serious for the reason that 75 per cent. of these contaminating materials go into solution and can be removed in no way, but remain to cause the development of unfavorable fermentations which produce bad flavors in the market production.

**CHICHESTER'S PILLS**  
THE DIAMOND BRAND.  
Ladies! Ask your Druggist for Chichester's Diamond Brand Pills in Red and Gold Metallic Cases, sealed with Blue Ribbon. Take one after each meal. If you are a sufferer from Indigestion, Constipation, Biliousness, Headache, or any of the ailments which these pills cure, you will find them a most reliable remedy. Sold by Druggists Everywhere.

## Highway Improvement

### NORTH CAROLINA GOOD ROADS

Improved Thoroughfares Tend to Prosperity of Farmers and Saving of Time is Considerable.

(By N. BUCKNER.)

Throughout the mountain region of western North Carolina the good roads sentiment has attained proportions and gathered such impetus as to sweep aside objections to expenditures for good roads, which is usually the case in all progressive movements of great moment. The movement had its inception in Asheville, North Carolina, when the Asheville and Buncombe County Good Roads association was organized by a few public spirited men who realized the loss to this beautiful mountain country by reason of lack of good roads which made it impossible for not only the people of this section, but the tourists and visitors from going from one point to another.

Immediately after the organization of this association, it raised \$5,000 by subscription and regraded and macadamized the road from Asheville to Biltmore, a distance of a little more than two miles. This one piece of work in itself demonstrated to the

Bad Road in North Carolina.

citizens that good roads could be built in the mountains and it stimulated all thinking citizens to further effort.

At the present time, macadam and sand clay roads have been and are being actively constructed throughout the entire "Land of the Sky" region in western North Carolina, there already being hundreds of miles of splendid hard surfaced roads winding about the mountains, across hills and valleys from one section to another. The immediate territory surrounding Asheville is covered with a veritable network of good roads which are of the greatest benefit to the farmers of the country and to the business people of the city, and of especial delight to the throngs of visitors both winter and summer to this most delightful all the year around resort.

Adjoining counties have caught the spirit and forces may be found building macadam and sand clay roads in all sections. To the south Buncombe county has just completed macadamizing the highway to the Henderson county line, connecting at that point with a most splendidly graded road to Hendersonville, a

Same Road After Improvement.

Charming and delightful summer resort, and from that point south to the Polk county line across Saluda mountain to Spartanburg, South Carolina, connecting with the national highway to Atlanta. This road is the inlet and outlet for automobiles visiting in the "Land of the Sky," many hundreds of which are here during the year. The enterprising citizens of Polk and Henderson counties are regrading and rebuilding the road up Saluda mountain, giving a much easier grade than the present road, which, however, is easily negotiable.
